International Business

The book entitled "International Business" contains a description and explanation of the concept and implementation of the scope of International Business. It covers various topics including the Introduction to International Trade and Export, Free Trade Areas and Ports, as well as the Introduction to Import Export Documents, Export Procedure and Customs Related Export Procedure, Calculating Export Costs and Implementing Routine, Import Procedure, Calculating Import Costs, Shipping, Freight/Cargo Insurance, International Trade Payment and L/C, The Influence of Financial Strength towards International Business, Competitive Forces in International Business, and International Market Segments and Globalization of Product Development and Marketing.

The scope of International Business mostly revolves around customs export and import, as well as the broader field of international trade. It encompasses the regulation and flow of the trading system in international trade, including different types of trading systems, payment methods in international trade, the organization of international trade, explanations of trade zones, export and import procedures, cost calculations for export and import, shipping regulations, cargo insurance, and the impact of international business. The function of International Business is to familiarize individuals with the rules and regulations governing international trade, providing them with a fundamental knowledge of the field. By understanding these rules and regulations, individuals engaging in international trade can visualize and follow an expected path. This book's significant content is to introduce International Business in various areas and scopes.
